[illegible]

The United States Environmental Protection Agency (EPA) has developed the National Pollutant Discharge Elimination System (NPDES) stormwater program to control pollutants entering the nation's surface waters from industrial activities. EPA has authorized the Maryland Department of the Environment (MDE) to implement the NPDES stormwater program in Maryland. MDE has developed a General Permit intended to cover storm discharges from construction activity. This Notice of Intent (NOI) is an application form, designed to notify MDE of the permittee's intent to be covered by the General Permit for Construction Activity. This NOI form must be completed and submitted to MDE for any construction activity that results in an earth disturbance of five acres or more. However, if a single owner/developer is engaged in a multiple phase construction project with planned total disturbance of five acres or more, an NOI is required for General Permit coverage, even if the phase will disturb less than five acres.

PLEASE POST AT CONSTRUCTION SITE

9/29 The Paddocks

Cool/Overset

- Unlocked site for site conditions
- salt fence sdy to Lots 2 + 12 full
- runoff / blowouts continue in same lots
- salt fence full along right side of Paddocks Court
- Swale on left side of Paddocks Court totally full. 2 check dams blown out, 2 fully buried.
- standing water in both sides of swale in all directions + roadway
- met soils tech to sample road for soil cement

To Do:

UM

✓ call Jimmy Parsons re: So. 1 Cement

- Send bid packages

✓ Powell + Assoc.

✓ Gazebo

✓ Denison

✓ check w/ John Graham re: red-line
utility plans. - Call Tom Skiles
re: # of plans needed.

9/30 The Poddocks Middle/Cool

- met w/ Phil Sweeney re:
Site conditions.

- Phil to mobilize 8
dozers + backhoe
today

- mucking out swale
+ constructing a berm
before the outfall

to stop flow of water

- to install 4 ddr check
drums in the swale

- wrapping the area
adj to Sweet Hill Rd.

KHOV0255

11/5

South River Colony

day following heavy rain event
walked perimeter of the site

& inspected sediment traps

- seeds + mud in place and stable
- positive drainage to both traps
- some soil on trap 1 from
small blowouts in lot
12-13
- All berms & outer ditch
stable

11/5

The Paddocks

day following heavy rain event

walked perimeter of the site

& inspected all sediment
controls

- blowout in lot 5 has recovered
a soil fence behind lot is
fine
- no other blowouts noted
- check dams on right side
of court - 3 dams fine & sit

440-739-5222
Baldpate

- All other dirt fence in good condition
- Seed + mulching stable

11/12 South River

- following heavy rain event
- all seed controls in perimeter still in place. Berms, stable, positive drainage to both traps, no standing water

11/12 The Paddock

- following heavy rain event
- check dams on left side prior to outfall filling up.
- underdrain area needs to be stabilized

11/18 South River Colony

Inspected all silt fence, berms
& ponds. All areas remain
stabilized with good drainage
to both traps. Some erosion
from lots 12-13 into sediment
trap

11/18 Proddocks.

check drains adjacent to
lots 4 & 5 with some
sedimentation along areas
where Bl+E is running
lines. Some areas of silt
fence in need of clearing
out and/or repairing. Area
where underdrain installation
is in need of stabilization.
Contracted Belieble to have
the area seeded & plowed.

CUA-739-56240

11/24
~~11/24~~

Vainy
overcast

11/30

South River Colony

positive drainage to both ponds
All out fence in place except
an area where utility work
is extending the waterline

11/30 The Paddocks

Some out fence in need of
repair. several trees down
from wind storm several
days previously. Areas
in need of stabilization
have been seeded + strawed.

12/6 South River Colony
out fence behind pa
needs to be repaired
out fence behind ber
at the rear of the site
needs to be repaired
need to seed + straw berm
at the rear of the site

12/8 The Paddocks
all out fence has been
repaired. Super out fence
repaired + installed at
high current. Trees have
been removed from out fence
lot 3 has been mucked
out. Working on Rebar to
come to site to repair supplies.

4.0' high of
chain

12/10. The Paddock

Eldred has removed all
dead trees. Additional
out fence repairs made
by specialized. Fences
to be graded on 12/13

South River

per conversation w/ Edman
of AA Co. Sed control,
out fence - berm repairs
need to be completed
by 12/15/04. Also need to
place odd stone at
the construction entrance.
Rehabe notified of
requirements.

KHOV0261

12/22 Paddocks -

Reliable to return to site first
week of January to start repairs
in swales

12/22 South River

more stone placed at construction
entrance, all other sediment
controls stable

1/5 Paddocks

- All sediment controls in place.
Reliable mobilizing to site to
begin stabilizing swales

1/5/05 South River

traps, beams and silt fence
all in place and stable

410-739-5624

Biddle

1/6 Paddocks

- Dewatering of swales on
Paddocks Court - Reliable.

Water still rapidly flowing
into swale at lot R. Relia
to construct up-slope channel
from Ball. Hill Rd. and down
to driveway just at lot 1

KHOV0263

1/10 Pradokes

- Riprap channel at lot 1 installed. 5 ft fence and berm in good shape. Blowout behind lot 3 due to water flowing across lot into adjacent forest conservation area.

1/10 South River

- Loading & prorolling Abby Rd. Inspected silt fence + berm - all in good condition

440-739-5624
Fitch

1/13 Paddock

Area between lots 8 & 9 needs
to be stabilized to slow down
run-off Eusho and right side
of paddocks Court are graded,
to sod next week

1/13 SKE

Backfilling behind curb, place
stone after backfill + grading
set fence, beams + traps in good
condition

Heavy rain overnight

1/4 South river
backfill behind curb stable,
not eroding onto way.

1/4 Paddocks
erosion in swales from
overnight rain, reliable to
dewater

1/20 Paddocks
Reliable mucking and
regrading swales. All
sediment controls in place

1/26 Paddocks
- repaired erosion issue in lot 2

3/10/05 . South Cover

- all items from 3/4/05 inspection
Completed

3/29 Paddock 5

- erosion problem continues on
lots 6-8 and lot 3. To schedule
site visit. to install SSF on
lots 6-8 at the top of the swale
to slow down runoff into swale,
much out put in SSF next
to lot 3 + extend SSF,

Paddock

3/31 nu fence installed at lots 6-8
+ lot 3, much-out of lot 3
completed

RE: Rolling Oaks – Private Underdrain Phase 1 & Phase 2
04-BA-0017

Dear Mr. Carlson:

The Maryland Department of the Environment, Water Management Administration (MDE/WMA) has modified the Notice of Intent (NOI), for the above site, to comply with the General Permit for Construction Activity, in accordance with the Environmental Protection Agency's National Pollutant Discharge Elimination System (NPDES) stormwater program.

The Total Disturbed Area has been increased from 1.3 to 9.9 acres.

If you have any questions please feel free to contact me directly at (410) 537-3525.

Sincerely,

Lois B. McNamara

Mr. Stefan I. Koczerzuk
Rose Valley LP
3701 St. Barnabas Road
Suitland, MD 20746-3211

Dear Mr. Koczerzuk:

The Maryland Department of the Environment, Water Management Administration (MDE/WMA) has received a Notice of Intent (NOI) to comply with the General Permit for Construction Activity, in accordance with the Environmental Protection Agency's National Pollutant Discharge Elimination System (NPDES) stormwater program. You have been identified on the NOI as the principal contact for the Rose Valley site. This NOI has been assigned number 03-PG-0014.

With this NOI submission, the permittee is covered by the General Permit. As such, the permittee is authorized to discharge stormwater associated with construction activity, as defined in the Clean Water Act, from this site. The permittee is responsible for compliance under all terms of the General Permit. This includes the submission of a Transfer of Authorization form to WMA should someone other than the permittee intend to control the permitted activities on the site (see Part I.E. of the General Permit; these forms are available at plan review offices and at WMA), conducting weekly inspections of erosion and sediment controls and maintaining records of these inspections (see Part IV of the General Permit), submitting a Notice of Termination form upon completion of the construction activity and final stabilization of the site (these forms are also available at plan review offices and at WMA), and meeting all other obligations described in the General Permit. A copy of the General Permit is enclosed for your reference. Please review this document carefully.

Thank you for your NOI submission and your intention to comply with the General Permit. Should you have questions regarding the General Permit or the NPDES stormwater program in general, please contact our office at (410) 537-3510.

Sincerely,

Lois B. McNamara

Ms. Ann Bangert
Washington Homes of Maryland I, LLC
1802 Brightseat Road
Landover, MD 20785-4235

Dear Ms. Bangert:

The Maryland Department of the Environment, Water Management Administration (MDE/WMA) has received a Notice of Intent (NOI) to comply with the General Permit for Construction Activity, in accordance with the Environmental Protection Agency's National Pollutant Discharge Elimination System (NPDES) stormwater program. You have been identified on the NOI as the principal contact for the *South River Colony* site. This NOI has been assigned number 04-AA-0095.

With this NOI submission, the permittee is covered by the General Permit. As such, the permittee is authorized to discharge stormwater associated with construction activity, as defined in the Clean Water Act, from this site. The permittee is responsible for compliance under all terms of the General Permit. This includes the submission of a Transfer of Authorization form to WMA should someone other than the permittee intend to control the permitted activities on the site (see Part I.E. of the General Permit; these forms are available at plan review offices and at WMA), conducting weekly inspections of erosion and sediment controls and maintaining records of these inspections (see Part IV of the General Permit), submitting a Notice of Termination form upon completion of the construction activity and final stabilization of the site (these forms are also available at plan review offices and at WMA), and meeting all other obligations described in the General Permit. A copy of the General Permit is enclosed for your reference. Please review this document carefully.

Thank you for your NOI submission and your intention to comply with the General Permit. Should you have questions regarding the General Permit or the NPDES stormwater program in general, please contact our office at (410) 537-3510.

Sincerely,

Lois B. McNamara

Mr. Mike Irons
Washington Homes
1802 Brightseat Road
Landover, MD 20785-4235

Dear Mr. Irons:

The Maryland Department of the Environment, Water Management Administration (MDE/WMA) has received a Notice of Intent (NOI) to comply with the General Permit for Construction Activity, in accordance with the Environmental Protection Agency's National Pollutant Discharge Elimination System (NPDES) stormwater program. You have been identified on the NOI as the principal contact for the Winshire Estates site. This NOI has been assigned number 03-PG-0019.

With this NOI submission, the permittee is covered by the General Permit. As such, the permittee is authorized to discharge stormwater associated with construction activity, as defined in the Clean Water Act, from this site. The permittee is responsible for compliance under all terms of the General Permit. This includes the submission of a Transfer of Authorization form to WMA should someone other than the permittee intend to control the permitted activities on the site (see Part I.E. of the General Permit; these forms are available at plan review offices and at WMA), conducting weekly inspections of erosion and sediment controls and maintaining records of these inspections (see Part IV of the General Permit), submitting a Notice of Termination form upon completion of the construction activity and final stabilization of the site (these forms are also available at plan review offices and at WMA), and meeting all other obligations described in the General Permit. A copy of the General Permit is enclosed for your reference. Please review this document carefully.

Thank you for your NOI submission and your intention to comply with the General Permit. Should you have questions regarding the General Permit or the NPDES stormwater program in general, please contact our office at (410) 537-3510.

Sincerely,

Lois B. McNamara
